Memory Lane

Minnie Riperton

I stumbled on this photograph, it kinda made me laugh
It took me way back, back down memory lane
I see the happiness, I see the pain
Where am I? Back down memory laneI see us standing there, such a happy, happy pair
Love beyond compare, look-a-there, look-a-there
The way you held me, no one could tell me
That love would die, ohh, whyDid I have to find this photograph, thought I had forgot the past
And now I'm slippin' fast, oh, back down memory lane
I feel the happiness, I feel the pain
Here am I, back down memory laneI'm in the sunshine, I'm in the rain
Thought it was over, here I go again
The way you held me, no one could tell me
That love would dieI don't wanna go traveling down
Faster than the speed of sound
Back down memory lane
Be still my foolish heart
Don't let this feelin' start
Back down memory laneI don't wanna go
Back down memory lane
Save me, save me
Back down memory lane
Save me, save me, save me, save me, save me, me
Back down memory lane
