

Lie with Me

David Nail

I felt this coming for a month or two,
you don't look at me like you used to do
still when you leave it's gonna be too soon,
bid me a minute, while we're still in it lie with me,
hold me like you mean it,
kiss me like you're loving holding me tonight
make me feel like it ain't over,
go a little slower baby one last time it ain't the truth is gonna set me free,
come on, come on,
lie with me
you put your _?_ and _?_,
do you want to need to feel it all night long?
make me believe you ain't already gone
let's take the last time, begging on this time (?) lie with me,
hold me like you mean it,
kiss me like you're loving holding me tonight
make me feel like it ain't over,
go a little slower baby one last time it ain't the truth is gonna set me free,
come on, come on,
lie with me love me like you mean it,
I _?_
hold me that much now(?)
don't leave me _?_
give me something,
baby what's the rush now
lie with me,
hold me like you mean it,
kiss me like you're loving holding me tonight
make me feel like it ain't over,
go a little slower baby one last time it ain't the truth is gonna set me free,
come on, come on,
lie with me
lie with me
