Smoke

Electro Deluxe

Running around
trying to get stonned
keeping you down
turn your back on your homeFeel the trill
but it's never long
will be here while you're gone.Always just the same,
always just afraid.
And I follow you around,
always just the same.Playing around,
like you got time to kill.
here in the clouds (edging the clouds?)
with your hands of the wheelFeel the trill
but it's never long
will be here while you're gone.Always just the same,
always just afraid.
And I follow you around,
always just the same.Just take a hit
and let it feel your lungs
with a sweet sin heaven's miracle.Keep it for a second,
hold it till you feel it.
It's the smoke.. (i'm loving? i love it?)
I'm talking about.I won't let go of you,
no matter what you do,
won't turn my back on you.Let it take over you,
you have to break through.- solo -Always just the same,
always just afraid.
And I follow you around,
always just the same.
(bis)
