

M

The Cure

Hello image
Sing me a line
From your favorite song
Twist and turn
But you're trapped in the light
All the directions were wrong You'll fall in love with somebody else
Tonight Help yourself
But tell me the words
Before you fade away
You reveal all the secrets
To remember the end
And escape someday You'll fall in love with somebody else
Again tonight Take a step
You move in time
But it's always back
The reasons are clear
Your face is drawn
And ready for the next attack
