We Need a War

Fischerspooner

We need a war
We need a war to show em
We need a war to show em that we can
We need a war to show em that we can do it
Whenever we say, we need a warIf they mess with us
If we think they might mess with us
If we say they might mess with us
If we think we need a war, we need a warWe need a war
If we think we need a war
We need a war
If we think we need a warA war to make us feel safe
A war to make em feel sorry
Whoever they areIf they mess with us
If we think they might mess with us
If we say they might mess with us
If we think we need a war, we need a warWe need a war
If we think we need a war
We need a war
If we think we need a warCan we do it?
Sure, we canWe need a war
We need a warWe need a war, we need a war
We need a war, we need a war
We need a war, we need a war
We need a war, we need a war
