Time Out

Joe Walsh

Goin' through the motions
Tryin' not to snore
Didn't know the gun was loaded
Goin' through my motion
Caught without an oar
Someone said they all were phonyTime out, save the play
Try to make the lie last
Any old way you can
Signed out all the way
When you speak your mind out
Never say what you planI met her in the hallway
Bangin' on the door
Askin' what the funny smell was
Wake you up and tell you
It's OK to sleep some more
By the way, is there any you can sell us?So your case is gettin' hotter
Hear me tell you, Jack
Stick 'em up, you've just been busted
Your basement's full of water
Got above the tide
Hope to God the pump ain't rusted
