

One Love

Jennifer Lopez

Took a shot, with the bad boy from the block
Picked my love right from the start
Mister wrong, he plays his part
Back to the beginning, now round two
Try my luck with something new
We danced until we said "I do"
My luck is bad, no more us, two
No me and you Is it too much to ask
For a real love,
Something that'll last? Is there one love
Only once in a lifetime?
It's so hard to find
The perfect one to call mine
Is there one love
Somebody that compliments me?
And makes me wanna never leave?
Made just right for me? Is there one love
One love
One love
One love It's take three
Could there be a part for me?
Came and swept me off my feet
Went nowhere but kept the ring, once again I'm lonely
Number four, he sang to me but I'm not sure
So worn out, but love just saw
Made me wanna try once more
And I couldn't say no Is it too much to ask
For a real love
Something that'll last? Is there one love
Only once in a lifetime?
It's so hard to find
The perfect one to call mine
Is there one love
Somebody that compliments me?
And makes me wanna never leave?
Made just right for me? Is there one love
One love
One love
One love What's wrong with the girl

Who wanted everything, good love
Real trust, true meaning oh
Who truly completes me
I'm good on my own, but I have to know Is there one love
Only once in a lifetime?
It's so hard to find
The perfect one to call mine
Is there one love
Somebody that compliments me?
And makes me wanna never leave?
Made just right for me? Is there one love
One love
One love
One love Is there one love
One love
One love
One love Is there one love
