Sister, Sister

Akinyele

I'll be you friend
Though I love you like my brother
There'll never be another, baby
Sister, sister
(You're like a brother to me)
Sister, sister
(We go back like family)
Sister, sister
(I knew you ever since day one)
Sister, sister
(Man, me and you be having mad fun)
Yo girls be acting like they my sister
What the fuck
You mess around and get your sisters ass
Inscest up
Talking about you can't buy them like your brother and shit
But we don't got the same father, never suck on the same mothers tits
She'll have coming to this putting lego sticks
On my dick 'cause you cumquat and shit
Sister, sister
(You're like a brother to me)
Sister, sister
(We go back like family)
Sister, sister
(I knew you ever since day one)
Sister, sister
(Man, me and you be having mad fun)
We used to conversate and shit, for a little bit
You told me about the guys you hit
You said, I probably lied about the girls
In the world that I said I done hit
But I let it pass with a simple laugh
'Cause it was the beginning so I stay smiling and grinning
Even when you joke and said
My wrinkled sweater reminded you of fucking crushed linen
(That shirt is wrinkled like crushed linen ha, ha)
Anyway ha, ha, ha, ha, ha had to find that funny
So I said, ?Yo bitch would you fuck me for money??
?Na, na, na I ain't?, said that, ?I ain't? said that, ?Chill, chill, chill?

This is what I said, ?Hey, listen yo?
Every time I try to set it off you be like no
Quick and call the kid up every time you broke
Talking about some nigga played you out
Slapped you in your mouth
And if I see you you want me to react like pulling on
Risking mafia as I watch some kids blood spill
Why you run around town talking about?
(Yo nigga, I get you killed)
Girl don't get me wrong I'm not ducking and shit
Before I make moves I got to fuck and shit
Bust a nut and shit in your gut and shit
Fuck you down, turn you around in your butt and shit
Sister, sister
(You're like a brother to me)
Sister, sister
(We go back like family)
Sister, sister
(I knew you ever since day one)
Sister, sister
(Man, me and you be having mad fun)
This right here is for everyone who got an artificial sister
This is just being sung for
This is just being sung for
This is just being sung for
I'll be your friend
Though I love you like my brother
I can never be your lover
Yo this song right here is dedicated to
All the girls who want to be some dudes sister
So she can get all the priviliges of being the dudes girl
Without fucking that motherfucker, know what I'm saying
Sister, sister
(You're like a brother to me)
Sister, sister
(We go back like family)
Sister, sister
(I knew you ever since day one)
Sister, sister
(Man, me and you be having mad fun)
