

It's Working

Mark Wills

She don't know how to work on her car
she just steps on the gas and it goes
me, I'm no technician but a little knob twisting
puts a song on my radio
and when it comes to love, we're a lot alike, she and I
We don't really know what we're doin'
But we're doin' something right
cause it's working

[Chorus:]

Working like a charm
Working like a dream
humming like a big well-oiled machine
chugging right along
steady and strong and certain
so far, so good, baby knock on wood
it's working

Some folks tear a good love apart
just to see what makes it tick
and sometimes when they put it back again
the pieces don't want to fit
that don't mean I don't ask every day
Honey, how we doin'
'cause I love to hear her say
It's working

[Chorus]

Chugging right along
steady and strong and certain
so far, so good, baby knock on wood

[Chorus x2]
