Haste the Day

(?)

My arms are falling down
Save me, save me Have I gone too far?
Away from all I know
Have I gone too far?
From you, from you We'll find you sinking in oceans
Clear waters deep as the earth is from the sun
I can't reach out any further
We'll take you as you are
We'll take you when you come(?)
Free me, free me We'll find you sinking in oceans
Clear waters deep as the earth is from the sun
I can't reach out any further
We'll take you as you are
We'll take you when you come Can we start all over? (take you as you are)
We begin again (as you are)
Can we start all over? (take you as you are)
We begin again Have I gone too far?
Away from all I know
Have I gone too far?
From you, from you We'll find you sinking in oceans
Clear waters deep as the earth is from the sun
I can't reach out any further
We'll take you as you are
We'll take you when you come We'll take you as you are
We'll take you when you come
We'll take you when you come Have I gone too far?
Away from all I know
Have I gone too far?
From you, from you Have I gone too far?
Away from all I know
Have I gone too far?
From you, from you Have I gone too far?
Away from all I know
Have I gone too far?
From you, from you...
