

TV Mama

Johnny Winter

Well, I laid down last night and I turned my TV on
You know I laid down last night, I turned my TV on
You know as I get old, people
But I believe my tube is wrong Well, my baby she was cryin' want me to get my TV fixed
Oh, she was cryin', wanna get my TV fixed
She said a TV service and she need it mighty quick
Right away now Well, I called the TV doctor, he came over right away
He said that he'll see what he can do here to haul my TV away
I told no, damn well I'll never do, man, if you don't get the picture
I'm gonna do some work on you, work a while go ahead now Got my TV workin', my old tube is like brand new
You know I got my TV workin', my old tube is like brand new
Yes, come over baby, and I show my tube to you
How do you like my tune?
