

# Just a Love Song

Walter Murphy

Here we are again and words are hard to find  
But I guess that never was my style  
All I have to offer is my song  
So I'll play it well, cause it's all for you It's just a love song  
And I will sing it all for you  
Just a love song, a simple melody for two  
But to me it sounds just like a symphony  
And when the words have come and gone my love will linger on for you Hope you'll understand how much you  
mean to me  
All the ways you brought me happiness  
Just to say it isn't fine enough  
So I'll play it well and I hope you'll see  
It's just a love song  
And I will sing it all for you  
Just a love song  
A simple melody for two  
But to me it sounds just like a symphony  
Just a love song, just a love song, for you It's not easy for me baby  
I know it's hard to understand  
I get that felling every time I try to say I love you.... All the feelings I have locked in side my soul  
All the magic you bring out in me  
You're my inspiration my every dream  
So listen well and I think you'll know It's just a love song and I will sing it all for you  
Just a love song a simple melody for two  
But to me it sounds just like a symphony  
And when the words have come and gone  
My love will linger for you... Just a Love song Just a love song for you.....
