FYI

Jay Electronica

FYI
FYI (For Your Information)
You're a maniac but it's my decision
when I say I'm so so serious
As a heart attack, caught you in my vision
Must admit I'm not afraid of us
Hey you, I say what I mean
I mean what I say when I say
(Chorus)
Girls like boys,
who never want to stay you see
As soon as they walk away
We step in their direction
That's OK,
Who wants to haves some guy not I
Sticking right by my side we kinda dig rejection
This is for your information.
FYI (For Your Information)
You're a lunatic, and you're on a mission
To corrupt my soul and it's all yours
I've been wanting it, Mr. Recollection
Cause I'd rather rock that's how I roll
Hey you, you get what I mean
I mean what I say and I say
(Chorus)
Girls like boys,
who never want to stay you see
As soon as they walk away

We step in their direction
That's OK,
Who wants to haves some guy not I
Sticking right by my side we kinda dig rejection
This is for your information.
FYI (For Your Information)
I wanna be a casualty
over this love
It better be worth it
I'd heard that you got some tragic darts

To pierce my heart but it's only blood
You stick on a band-aid and smile like a girlfriend should.
I'm a little nuts, guess that's why I like you
Wanna meet meet me halfway
Let's commit
Maybe both of us to the loony bin
Waving through the bars of this big bus
Hey you,I say what I mean
We mean what we say and we say
(Chorus)
Girls like boys,
who never want to stay you see
As soon as they walk away
We step in their direction
That's OK,
Who wants to haves some guy not I
Sticking right by my side we kinda dig rejection
This is for your information.
