

It's All Good

Naomi Pilgrim

What was that? Come again,
My bad I was digging in
Thinkin' 'bout something I'm not
Slap me up, shake me down
Think I need a walk around
Need something to wake me up

'Cause I've been lose inside in my mind
Dreams had only made me waste the time
I'm counting all the blesses I've got
So slap me up, shake me down
Think I need a walk around
Need something to wake me up

They make me go, oooh oooh oooh oh
They make me go, oooh oooh oooh oh

Come pick me up, I'm down
It's all good
Bring me sound, make it loud
It's all good
No holding back, I'm done with that
It's all good
So come pick me up, I'm down
It's all good good good good

Take a breath, hold it in
Focus on the positive,
Slowly breathe my worries out
Feel awake, feel it right
Think I'm gonna be alright
Leave it on the could be's

'Cause I've been lose inside in my mind
Dreams had only made me waste the time
I'm counting all the blesses I've got
So slap me up, shake me down
Think I need a walk around
Need something to wake me up

They make me go, oooh oooh oooh oh
Make me go, oooh oooh oooh oh

Come pick me up, I'm down
It's all good
Bring me sound, make it loud
It's all good
No holding back, I'm done with that
It's all good
So come pick me up, I'm down
It's all good good good good

It is not that complicated
Just regret the time I wasted
but I'm gonna make it alright
No, it is not that complicated
Just regret the times we've wasted
but I'm gonna take it back tonight
And make it alright

Come pick me up, I'm down
It's all good
Bring me sound, make it loud
It's all good
No holding back, I'm done with that
It's all good
So come pick me up, I'm down
It's all good good good good

They make me go (go go go go go), oooh oooh oooh oh
They make me go (go go go go go), oooh oooh oooh oh
