## Nine Lashes

Indeed  
The clever cover costs too much to pay  
Could I ever be the same, as it is?  
So it's always been for you and I  
Unchanging And if ever you can hear me  
Take time, investigate the sounds  
'Cause your words are crashing through me  
Feel their meaning taking form, am I dreaming? Where is here?  
I awaken to revision And you will never find another one like this  
Another son to take away the sin  
He bled it all to save you from the cancer  
The cancer Now say what you will  
And I feel the changes slipping far behind  
And the world has left me here to die  
Tonight I will take my stand Where is here?  
I awaken to revision And you will never find another one like this  
Another son to take away the sin  
He bled it all to save you from the cancer  
The cancer  
The cancer Whoa-oh See me crawling back to you  
Desperate for change  
Receive me crawling back to you  
Take my hand would you please Whoa-oh- oh- oh-oh-oh  
Whoa-oh -oh -oh-oh-oh I'm letting go of everything  
I see you clearly And you will never find another one like this  
Another son to take away the sin  
He bled it all to save you from the cancer  
The cancer  
The cancer  
The cancer
