No Fear

Fishbone

There's a storm coming, but there will be no rain
Bringing clouds of anger from a thousand years of pain
For some of us there is no shelter
From the change in the weatherIt will find you wherever you run
So if you're down for what's right
There's no reason to hide
For you there is no fearPeople dying and crying
The sound of shattered dreams
Drowning the voice of the future
With negativityFor some of us there is no answer
To the change in the weather
Cloud's will cover the sun
So if you're down for what's rightThere is no reason to run
For you there is no fearRun, run, run, run
But you can't hide from the storm
Lightning from the sky will strike you down
I have no fear, I have no fearThere's a hurt coming
But who will feel the pain
And the tears of sadness
Falling down like rainRun, run, run, run
But you can't hide from the storm
Lightning from the sky will strike you down
I have no fear, I have no fearThere's a storm coming
But there will be no rain
