

# No Fear

## Fishbone

There's a storm coming, but there will be no rain  
Bringing clouds of anger from a thousand years of pain  
For some of us there is no shelter  
From the change in the weatherIt will find you wherever you run  
So if you're down for what's right  
There's no reason to hide  
For you there is no fearPeople dying and crying  
The sound of shattered dreams  
Drowning the voice of the future  
With negativityFor some of us there is no answer  
To the change in the weather  
Cloud's will cover the sun  
So if you're down for what's rightThere is no reason to run  
For you there is no fearRun, run, run, run  
But you can't hide from the storm  
Lightning from the sky will strike you down  
I have no fear, I have no fearThere's a hurt coming  
But who will feel the pain  
And the tears of sadness  
Falling down like rainRun, run, run, run  
But you can't hide from the storm  
Lightning from the sky will strike you down  
I have no fear, I have no fearThere's a storm coming  
But there will be no rain
