Any Day Woman

Paul Siebel

Chorus
If you don't love her
You better let her go
You'll never fool her
You're bound to let it show
Love's so hard to take
When you have to fake
Everything in return
You just preserve her
When you serve her
A little tenderness

Verse I
If she's a woman
She'll try to make it last
If you're a man now
You better end it fast
There's no reason here
No treason here
Just the ways of woman's mind
And she has no blame
She has no shame
She just loves you

Verse II
And it's not easy
To undo what's done
Nor to speak too freely
To just anyone
But if this takes more
Than you bargained for
Then boy it's time you learned
Not to walk so proud
Or talk so loud
When you're comin' on

Chorus:
