

# The Best Part (is You)

Ne-yo

The worst part of about fighting with yourself  
Is that even if you win, you lose  
Cant place the blame on anybody else  
So im fighting with myself over you  
I should of played it different  
But i didnt know  
I never pictured you without me or you letting go  
I should of seen it coming  
I should of thought it through  
The best part of me has always been you  
And no apology can bring you back to me  
Feel like im suffocating you are the air i breathe  
And i now im so down,  
I cant move and im beating me up over you  
The worst part of about fighting with yourself  
Is that even if you win, you lose  
Cant place the blame on anybody else  
So im fighting with myself over you  
Yeah,  
Maybe instead of making you feel you were crazy  
Should of just been a man about it, you cant leave

You knew that i was cheating  
And i knew that you knew  
But when you call me on it, I just turned it around on you  
Blaming you, feel like your the one causing confusion  
Accusing you of not trusting me when i know im doing wrong  
So i sit around fighting myself all day long  
Oh baby girl the worst thing about fighting with yourself  
Is that even if you win, you lose  
Cant place the blame on anybody else  
So im fighting with myself over you  
What ifs and maybes are driving me crazy  
I lost my baby and theres no one to blame but me  
So im yelling at the mirror telling myself what i should of done  
What i should of done..  
The worst part of about fighting with yourself  
Is that even if you win, you lose  
Cant place the blame on anybody else

So im fighting with myself over you  
Do do doo doo..
