

Ran For Miles

[Gemma Hayes](#)

Well I got myself a new day
And I got myself a second chance
So I headed to the bus stop
And the sun, the sun was warm on my back Today I ran for miles
Just to see what I was made of Today I ran for all that was mine Well I got myself a song inside
And I got myself some full blown daylight
want to tell you just how hard it's been
Trying to talk myself out of jumping Today I ran for miles
Just to see what I was made of Today I ran for all that was mine, yeah Today I ran for miles
Just to see what I was made of Today I ran for all that was mine
Just to see what I was made of Today I ran for all that was mine, yeah
