

Judgement Day

Boyzone

Someday I know I'll find my way to say What makes the world a better place, you say My mind is telling me to fight for my rights I've learned my lesson done my time Someone please just... Save me Help me please don't break me, I pray (I pray, I pray) It's crazy My heart's pounding, save me On judgement day, my day Doomsday I know that I have made mistakes I've paid please don't give my soul away I'm dreaming of freedom I watch from my window inside My pulse and my breathing is what I am needing for life You've watched me sleepless seen me cry, oh why Help me my life is on the line Someone please just Save me Help me please don't break me (I pray, I pray) It's crazy My heart's pounding, save me On judgement day, my day My day My day My day My mind is telling me to fight for my rights I've learned my lesson done my time Someone please just... Save me Help me please don't break me (I pray, I pray) It's crazy My heart's pounding save me On judgement day, my day Save me Help me please don't break me My day My day It's crazy My heart's pounding save me On judgement day, my day
