

# Why Do Girls Love Crying

[Ian Thompson](#)

She may like your smile she may like your style  
she may think you're cool always playing the fool  
she says you're such a nice guy  
but she ain't gonna love you til you've made her cry  
You can do your best build for her a nest  
shelter her from rain ease away her pain  
brighten up the night sky  
but she ain't gonna love you til you've made her cry  
You may not believe what you here  
and I can always just disappear  
but it don't matter what I say or do  
co's nothing takes away the fact that it's true  
I don't know I've give up trying  
Why do girls love crying why do girls love crying  
It's a tough old game everyone's to blame  
I've played every part co's we're all so smart  
but for her you'd die  
and she ain't gonna love you til she's made you cry
