

Tonight

Soulsavers

When your looking for salvation
Better take some time to get your story straight
Are you sure your ready for forgiveness
You might of left it kinda late
Tonight
No its never too late
Tonight
No its never too late
When your looking for salvation
In another persons life
Oh you better get yourself a witness
Huh you might consider a wife
Tonight
Tonight
So listen to what Im saying
And dont be listening to their fear
Oh you gotta jump into the water sometimes
You gotta risk it all, my dear
My dear
Looks like I might be heading for some trouble
You keep listening to their lies
Oh I know you have that nagging sickness sometimes
We can change it all, tonight
Tonight
Tonight
