

# I Walk Away

## Wolfchild

You came out of the world to me  
My life parted like the Red Sea  
We flowed easy between the rocks and stones  
Never seemed to stop us  
The years ended in confusion  
Don't ask me, I don't know what happened  
But I am a man with a mission  
Must be the devil, I don't know  
Find him marching to a different tune  
It's hard to let go all that we know  
As I walk away from you  
I hurled from my home to the unknown  
As I walk away from you  
Reveal whatever you desire  
To you it may be death defying  
Black day in the coldness of winter  
Black words slipping off my tongue  
I say, "Forget it, it's over"

As a dark cloud covered up the sun  
You know that it's  
It's hard to let go all that we know  
As I walk away from you  
The sun always sets with room for regrets  
As I walk away from you  
Give it to me, give it to me  
Your inspiration  
Give to receive, find all we need  
I walk away, as I walk away  
I'm just a slave to ambition  
Tension, your permanent condition  
So much you've always wanted  
Too much, given you a sore head  
I walk away, as I walk away from you  
As I walk away from you  
As I walk away from you
