Stop

Us5

[Verse 1:]Staring in the flame of a candle light
Will it burn here still tomorrow?
Watchin all the people tryin pass me by
Wanna warn them what's to follow
[Pre-Chorus:]What's it gonna take for you to believe?
How many mistakes till ya'll gonna see?
They've got you good, look all of you dying!
Only see the poor around me and you
Only see it through your life can be
They've got you good, cause all of you crying!
You know damn well they wanna burn you
And you know damn well you wont survive
If you're ever gonna hear me
Somebody anybody
Come on and end all you're fighting
[Chorus:]Stop!
It's such a disgrace
They're loosing they're face
They're killin the whole damn human race
Stop!

The innocent die
The children all cry
Why cant we all be allies?
[Verse 2:]Looking through the eyes of a small young girl
Will her tears be dry tomorrow?
She looks around and wonders why there's so much hate
And she fears of what's to follow
[Pre-Chorus:]You know damn well they wanna burn you
And you know damn well you wont survive
If you're ever gonna hear me
Somebody anybody
Come on and end all you're fighting
[Chorus:]Stop!
It's such a disgrace
They're loosing they're face
They're killin the whole damn human race
Stop!
The innocent die

The children all cry
Why cant we all be allies?
