

Sense In Politics

KNUCKLEHEAD

All dressed up in red and blue
So you know me now and I know you
No need to question or think no more
We already know who we're voting for

Is that John Walker's blues I hear
They crucified Steve Earl that year
And now the people cheer for the Dixie Chicks
There ain't no sense in politics

Are you for or against the war?
Do you recall who we're fighting for?
Do we know what the Issue is?
There ain't no sense in politics...
