

# I'm Taking You With Me

## Relient K

I made a habit  
Of never making promises  
That arent easy to keep  
And there you have it  
But now I make you one that is  
To keep you here with me  
'Cuz ever second that goes by  
I feel its just a waste of time  
If I'm not with you

If home is wher the heart is,  
Then my home is where you are  
But its getting on so hard  
To spend these days without my heart  
So im taking you with me.  
Anywhere that I  
Could ever want to be  
For the rest of my life  
I want you there with me  
And if there ever comes a time  
When I should have to leave  
I hope you know that I...  
Im taking you with me

And so Im trying  
To hold it all together and  
To make it though the day  
When Im just dying  
To drop it all and take your hand  
So we can run away  
From all the miles and the hours  
You seem to nervously devourer  
At time that I could be with you

If home is where that heart is  
Then my home is where you are  
But its getting on so hard  
To spend these days without my heart  
So Im taking you with me

Anywhere that I  
Could ever want to be  
For the rest of my life  
I want you there with me  
And if there ever comes a time  
Where I should have to leave  
I hope you know that I...  
Im taking you with me

Every second that goes by  
Theres on more second off my life  
And couldnt be more clear  
That I would die without you here  
Yeah, every second that goes by  
Theres one more second off my life  
And it couldnt be more clear  
That I would die without you here  
Yeah, every second that goes by  
Yeah, every second that goes by

So Im taking you with me  
Anywhere that I  
Could ever want to be  
For the rest of my life  
I want you there with me  
And if there ever comes a time  
Where I should have to leave  
I hope you know that I...  
Im taking you with me
