

Won't Turn Back

Our Lady Peace

Look at me the unbeliever
Tragic underachiever
Keep running from
The voice inside my head The days are getting longer
Headache a little stronger
Carry that cross
To feel like I exist I'll follow you through the dark
These horses will lead us to start I'm not ready to stop
I'm not hanging it up
I've come too far to turn back now I'm not ready to stop
I'm not hanging it up
I've come too far to turn back now
We'll turn back now Godspeed as we get older
Heart beats a little colder
See all these walls
Come tumbling down The dreamers we keep on dreamin
Schemers they keep on schemin
Digging out this hole
Coming out from underground I'll follow you through the dark
These horses will lead us to Start I'm not ready to stop
I'm not hanging it up
I've come too far to turn back now I'm not ready to stop
I'm not hanging it up
I've come too far to turn back now
We'll turn back now Remember back when we said we'd be something
Remember when we were kids
Remember back when we said we'd be something
Remember when we were kids I'm not ready to stop
I'm not hanging it up
I've come too far to turn back now I'm not ready to stop
I'm not hanging it up
I've come too far to turn back now Well I'm not ready to stop
I'm not hanging it up
I've come too far to turn back now I'm not ready to stop
I'm not hanging it up
I've come too far to turn back now
We'll turn back now
