So Good for You

Dakota Moon

(R. Artis, J. Blades, J. Dean)When you wake in the middle of the night
Don't you think that you need someone
Lying close, and holdin' on to youWhen you dream what 'cha dream about
When you wish, do you wish upon a star
Well girl, I'm wishing on the same star too.Suddenly, it occurs to me baby
That you and I, are meant to be togetherI'm the man who can make your dreams come true
I'm so good for you
Like the sun I can keep love shining through
I'm so good for youSo what 'cha think 'bout everything your hearing
Is there a place in your heart for me
What can I say, tell me what I need to do'Bout time that we fell in love
'Bout time I tell you that you're needed
Cause I'm holdin' this place in my heart for youYou and I, could sing a melody, baby
In sweet harmony, we'll make it last forever and ever and everI'm the man who can make your dreams come true
I'm so good for you
Like the sun I can keep love shining through
I'm so good for youThe desert knows it needs the rain
And I know that, I need you
To fill me up with love again
So come and take my hand, and then you'll understand, thatI'm the man who can make your dreams come true
I'm so good for you
Like the sun I can keep love shining through
I'm so good for you
