When the Bluegrass Is Covered with Snow

The Boxcars

When the Bluegrass is Covered with Snow

Summerâ€™s come and winterâ€™s gone
The birds are singinâ€™ in the trees
The sun shining bright the leaves in sight
The humminâ€™ of the bees

Chorus
The moon shines bright on the old home tonight
The wind blows soft and low
Pretty flowers so gay will someday fade away
When the bluegrass is covered with snow

In the heart of Kentucky where the bluegrass grows
Where flowers are bloominâ€™ the clear waters flow
The flowers fade in winter for a few months or so
When the bluegrass is covered with snow.

Chorus
