

# Forever Begins Right Now

## Lit

Oh I, I'm so happy that you're mine  
From now 'til the end of time  
Forever begins right now  
Everybody thought that  
We were doomed from the start  
But nobody knows what I see  
When I look in your heart  
They said we didn't equal  
Now we're writing us a sequel  
And I'm giving you the starring role  
And I know they don't believe it  
But I swear I'm never leaving  
I'll be here until the credits roll  
Nothing they can do  
No matter what they say  
On top of the world  
'Cause she's with me  
Oh I, I'm so happy that you're mine  
From now 'til the end of time  
Forever begins right now  
The way you look at me  
I see my world in your eyes  
And even though it's shattered  
It doesn't really matter, it's just you and I  
Everything is better  
When it's you and me together  
And we're proving everybody wrong  
The motor is revvin', we're rolling through Heaven  
And the angels are singing our song  
Oh I, I'm so happy that you're mine  
From now 'til the end of time  
Forever begins right now  
Bright as the morning  
You light up the night  
We're so far from normal  
And it feels so right  
It feels so right, I'm so happy that you're mine  
From now 'til the end of time  
Forever begins right now

Oh I, I'm so happy that you're mine  
From now 'til the end of time  
Forever begins right now  
Forever begins right now  
Forever begins right now
