Knock Down Drag Out

Red Line Chemistry

Drag it on too long
And you're bound to come undoneYou want reaction go on and do what you need
Yeah suit yourself it's all the same to meBack and forth you run
But the pain remains unsungYou want reaction go on and do what you need
Yeah suit yourself it's all the same to me
No more distraction go on and do what you need
This knock down drag out's over and now I can breatheWell my regard ain't high
And I don't mind Open your eyes
The lies are my disguise
You want reaction go on and do what you needYeah suit yourself it's all the same to me
No more distraction go on and do what you need
This knock down drag out's over and now I can breatheNo more lying
No more trying
No more dying
No more faith in you
