Gentleman Friend

Blossom Dearie

I got myself a hat with cherries
And a brand new yellow dress
It isn't very hard to guess
That the answer will be yesI'm ridin' high
And I approve of the trend
Look what I've found me
I got myself a gentleman friendThe sunny sky
Seems like it never will end
When he's around me
I'm referrin' to my gentleman friendHis kind of kissin' suits me to a T
What I was missin' in the used to be
I'm gettin' frequently
And so goodbye to cares that hound meIs it any wonder I
Wanna laugh and sing and cry
Gonna love him till I die
My gentleman friendHis kind of kissin' suits me to a T
What I was missin' in the used to be
I'm gettin' frequently
And so goodbye to cares that hound meIs it any wonder I
Wanna laugh and sing and cry
Gonna love him till I die
My gentleman friend
