

Scenes from a Night's Dream

Genesis

Little Nemo rubbed his eyes and got out of bed
Trying hard to piece together a broken dream
His visions lifelike and full of imagination
It's strange to think they came from such a tiny head
Dragons breathing fire, but friendly
Mushrooms tall as houses
Giant nymphs and goblins playing
Scenes from a night's dream, poor little Nemo
Eating all kinds of food so close to bedtime
They always made him have these nightmares, it seemed
Helped young Washington in the garden
Cut the cherry tree down
Now we all know that's not history
Scenes from a night's dream, poor little Nemo
Nemo, get out of bed
Don't tell me stories, I don't want to know
Come on you sleepy head, we're waiting to go
Once he went to the 'Carnival of Nations'
Dancing with the princess through the night
Found themselves on a moving platform
Ten ton weights above them
Seeking audience with King Morpheus
Scenes from a night's dream, poor little Nemo
Nemo, get out of bed
Don't tell me stories, I don't want to know
Come on you sleepy head, we're waiting to go
