Make That Sound

J. Holiday

You can call me Holiday
You can call me Holiday
They will hear us through these walls
If we make any kind of noise
And I got plans to make you scream
'Til you get close to losin' your voice
So don't you hide up in them sheets
I'm already not supposed to be here
So don't you worry 'bout gettin' in trouble
'Cause girl I got an idea
Turn up the radio so you can yell as loud as you want
Turn up the TV, I don't want nobody to hear me
Hear me while I make you moan
When you make that sound, girl
When you make that sound, baby
You make that
Yell as loud as you want
When you make that sound, girl
When you make that sound, baby
You make that
Yell as loud as you want
Girl, now you won't need a pillow to cover up your mouth
I just wanna see that pretty face of yours
Doin' that special thing I do all the while
You're pushing against me, against the headboard)
Beggin' to go deeper, baby deeper
Anymore I bust the twitter with a speaker
Follow me now I'll be your leader
We ain't stoppin' until your body needs a breather
Turn up the radio so you can yell as loud as you want
Turn up the TV, I don't want nobody to hear me
Hear me while I make you moan
When you make that sound, girl
When you make that sound, baby
You make that
Yell as loud as you want
When you make that sound, girl
When you make that sound, baby
You make that

Yell as loud as you want
Hold up
Now baby if you let me give it to you all night then you can't go wrong
So I'ma turn the radio up
So I can hear you screaming at the top of your lungs
Turn up the radio so you can yell as loud as you want
Turn up the TV, I don't want nobody to hear me
Hear me while I make you moan
When you make that sound, girl
When you make that sound, baby
You make that
Yell as loud as you want
When you make that sound, girl
When you make that sound, baby
You make that
Yell as loud as you want
Turn up the radio so you can yell as loud as you want
Turn up the TV, I don't want nobody to hear me
Hear me while I make you moan
When you make that sound, girl
When you make that sound, baby
You make that
Yell as loud as you want
When you make that sound, girl
When you make that sound, baby
You make that
Yell as loud as you want
