

# K-9

## Embodiment

Hold this sanity within your hands  
Demons tease and migrate, soar on wings  
But you my guardian angel pull me through  
Stay darling, giving up, giving in  
Kiss your lover  
Nylon barricades and window  
Soul Red Cross meetings daily ground this root  
Clever thoughts like you and me make us stay  
Darling, giving up, giving in  
Kiss your lover  
Stay, I'll find you home be not far from me  
Roll the stone, the sun has brought the day  
Cradle nothing in the arms of peace break time  
Lather, ointments aren't healing
