Every Single Thing

The Muffs

To everybody here
Who think that they might know me
Open your eyes before
You look at what you won't seeDoing everything I can
I hope I will be strongWhen every single thing
When every single thing
When every single thing is wrongAnd when you thought
There was no reason for my crying
I thought about
The possibility of dyingAnd I hope you understand
Why we don't get alongWhen every single thing
When every single thing
When every single thing is wrong
Yeah, it's wrongAnd I think
That you don't even understand me
And I'll never
Compromise on what I want to beAnd I hope you understand
Why we don't get alongWhen every single thing
When every single thing
When every single thing
When every single thing
When every single thing is wrong
Yeah, it's wrong
Yeah, it's wrong
