

# Time and Trauma

## 36 Crazyfists

I've seen the devil  
In many of my days  
Lately I've decorated far too many graves  
Put death down and tried to walk into the sun  
Without the flames igniting me all at once  
Time and trauma  
Both follow me  
One in the ocean  
The other in the sea  
What is the difference to me  
I am now a statue  
That's fallen to his knees  
And what is the difference to me  
I am now a statue  
That's fallen to disease  
I've seen the devil  
In many of my days  
Lately I've decorated far too many graves
