# Love Me

## Tesla

(Keith, Hannon, Wheat)
It's day and I'm feelin' high, what's the chances for you and I
I've got a love on my mind, lovin's on my mind
Now take me, lay me down, show me what you're all about
If you got the time, I wanna make you mine
'Cos you've got everything I want, baby you're all I need
I want you to gimme your love, give it all to me
[Chorus:]You've got to love me, c'mon, baby love me
Oh set me free, oh woman set me free
You've got to love me, c'mon, baby love me
Oh let me be, oh woman let me be
I've got this feelin' that I just can't help, want you baby all to myself
Do you got the time, I wanna make you mine
I'll be your only, woman, only love
Come on baby, give it to me, yeah, oh, give it to me
'Cos you are everything I want, baby you're all I need
I want you to gimme your love, give it all to me
[Chorus]
Time was waitin' for me, an hour due
'Cos I make her swear, she couldn't think I'd wanted to
You've got to give me some kind of a sign
Girl, let me know, if you're gonna be all mine
Come on, come on, come on, baby give it to me
[Solo]Oh, you are everything I want, baby you're all I need
I want you to gimme your love, give it all to me
Come on, give it all, give it all, give it all
You've got to love me, come on, love me
Oh set me free, oh woman set me free
You've got to love me, c'mon, baby love me
Oh set me free, oh woman set me free
Love me, love me, come on baby, I need your lovin'
You've got to love me, c'mon, baby love me
You got to give me, got to give me, got to give me everything I need
Love me!
