See Me Smiling

Yellowcard

The sun comes up and you are all over my mind
You're in my brain before I can open my eyes
As I go on without you, my heartbeat won't slow down
I need you back like I need air to breathe this outAll I can do is keep you closer now
'Cause I know you're somewhere out there looking down
Wherever you are, I hope you can see me smilingThe sky gets dark, I watch the water here at home
It's ten years now and I'm still learning to let go
It's not the same without you, there's no one keeping time
You were the rhythm that was bringing us to lifeAll I can do is keep you closer now
'Cause I know you're somewhere out there, looking down
Wherever you are, I hope you can see me smiling nowSometimes I can't help but think
That I have you right behind me all this time
If only you could have a chance to see
All the happiness you gave to meAll I can do is keep you closer now
'Cause I know you're somewhere out there, looking down
Wherever you are, I hope you can see me smiling now
I hope you can see me smiling
