Allies

Strike Anywhere

For the days to come watch out
They're taking everything we die for
like the freedom from this world's disorder
what did they murder you for?
born in gray eyes up but heads bowed
our comrades' songs heard at Stonewall loud
for every day we'll fight our way through
or we'll drown in all our past mistakes
Searching not waiting
For our reaction
Don't let them tell you
What you cannot beall the silent nights you thought
the space between you and the mirror
telling all the things you couldn't tell us
so afraid the world won't listen
and the ministers fill up the skies
praying on our fears and lies
still Love is the last thing we've got left to lose
our we'll drown in all our past mistakesSearching not waiting
For our reaction
Don't let them tell you
What you cannot beSearching no longer
For our reaction
Don't let them tell you
Who you cannot loveFor all this
You wanted
Don't fall
Names of the fallen
In the wall
Live on
So arm in arm
We'll fight them down
With all our prideDon't let them tell you
Who you cannot love
