This Is The Day

Phil Wickham

There's still a little sand inside of my shoes
I leave it there to keep me close to you
There's a whole other world inside me now
Full of words you can't hear
But the power of how I really feel
Is pulling you near
Its a vibration
There's no separation
We're one and the same
I don't have to be afraid
If you feel it
You might as well reveal it
Cause this is the day
Tomorrow could all be taken away
I can see the sun without the sky
But I can't see myself without your eyes
I wish I had told you this back then
I thought I had time
Well there's no use in swimming in regrets
I'll leave them behind
[Chorus]Suddenly waves cover me

Graced from above
So heavenly wrapped
Under the weight of your love
And you show me what you are made of
Cause the power of how I really feel
Is pulling you near
Its a vibration
There's no separation
We're one and the same
I don't have to be afraid
If you feel it
You might as well reveal it
Cause this is the day
And I'm gonna ride the wave
This vibration
Without hesitation
This is the day

This is the day
If you feel it
You might as well reveal it
Cause this is the day
Tomorrow could all be taken away
