Albatross

Wild Beasts

Albatross, albatross
How callous the ocean you cross?I, I blame you, I blame you
For all of those things I've been through
Don't feel bad, don't upend
It's my neck around which you hangLike a chain or a tag
I flinch and you fall through the cracks
To the sea and all it bears
The secrets that I should've sharedDrown in me
Yeah, they drown in me
Yeah, they drown in meI, I blame you, I blame you
For all of those things I've been through
Don't feel bad, don't upend
It's my neck around which you hangLike a chain or a tag
I flinch and you fall through the cracks
To the sea and all it bears
The secrets that I should've sharedDrown in me
Yeah, they drown in me
Yeah, they drown in meAlbatross, albatross
Which way to turn when we're lost?
