I Got Time

Letters to Cleo

That's the greatest picture that I have ever seen
So I stole it for myself so you could see just what I mean
And this alluvial fan it represents my life
I've got the strength to move but why should I?I got time
And I got timeThat's the greatest story I have heard so far
Lilies in the toilet, spiders driving motor cars
And all the evidence would seem to point out that
I'm just another choke in your wheels and that you got me trappedI got time
And I got timeYou take the weight off a heavy notion
And I'll take the wave from coast to ocean
That's why the ride is light
It's all alright, it's alrightYou take the weight off a heavy notion
And I'll take the wave from coast to ocean
That's why the ride is light
It's all alright, hey!And this alluvial fan it represents my life
I've got the strength to move but why should I?You take the weight off a heavy notion
And I'll take the wave from coast to ocean
That's why the ride is light
It's all alright, it's alrightYou take the weight off a heavy notion
And I'll take the wave from coast to ocean
That's why the ride is light
It's all alright, it's alrightYou take the weight off a heavy notion
And I'll take the wave from coast to ocean
That's why the ride is light
It's all alright, it's alrightI got time
And I got time
And I got time
It's what I got
