

# Middle of the Bed (Sizzle Bird remix)

Lucy Rose

I sleep in the middle of the bed  
You don't know, is it fine to hold my hand?  
I sleep in the middle of the bed  
Sun slips through my cold hands Do you really want me back?  
Do you really want me back?'Cause I'm over it, over you  
All over the town they say I love you  
I'm over it, I'm over you  
All over the town  
They say I love you, yeah  
They say I always will  
They say I love you, yeah  
These wounds, they won't heal I talk to myself at night  
Better still when the lights are turned out  
I talk inside my head  
Better if nobody knows what I said Do you really want me back?  
Do you really want me back?'Cause I'm over it, over you  
All over the town they say I love you  
I'm over it, I'm over you  
All over the town  
They say I love you, yeah  
They say I always will  
They say I love you, yeah  
These wounds, they won't heal It's all over the town  
You're spreading the word  
It's all over the town  
You're spreading the word If you knew me at all  
You should all know my answers  
If you knew me at all  
You should all know my answers If you knew me at all  
You should all know my answers  
If you knew me at all  
You should all know my answers They say I love you, yeah  
They say I always will  
They say I love you, yeah  
These wounds, they won't heal They say I love you, yeah  
They say I always will  
They say I love you, yeah  
These wounds, they won't heal The sun slowly falls through
