

# Antimatter

## Compuphonic

I'm antimatter  
I don't matter  
Cancer phones  
Break my bones  
I'm illusion  
Sonic solution  
Magic mind  
Sonic pollution  
I just detox  
I just see lots  
I see nothing  
Show me something  
We go round, round  
We make it safe and sound  
I try to break it down  
Alright  
We go round, round  
We make it safe and sound  
I try to break it down  
Alright  
I have visions  
Homo Sapiens  
Fast I've grown  
I think alone  
I'm confusion  
Evolution  
I am a man cub  
Institution  
I move forward  
I make awkward  
I just jump, jump  
I just thump, thump  
We go round, round  
We make it safe and sound  
I try to break it down  
Alright  
We go round, round  
We make it safe and sound  
I try to break it down

Alright  
I go round, round  
In my sound, sound

[Incomprehensible][Incomprehensible]Round, round  
In my sound, sound

[Incomprehensible][Incomprehensible]I evolve

Then dissolve

Maintain my lies

'Til April falls

My sea runs red

My trees are dead

My breath runs short

Please report

Is there someone out there?

Is there someone out there?

Do you receive me?

Do you receive me?

We go round, round

We make it safe and sound

I try to break it down

Alright

We go round, round

We make it safe and sound

I try to break it down

Alright

We go round, round

We make it safe and sound

I try to break it down

Alright

We go round, round

We make it safe and sound

I try to break it down

Alright

Alright

Alright

Alright

We go round, round

We try to

We go round, round

Make it alright
