Step Away

Lucid

What would be enough to turn your head around?
From your heavy tongue the heaviest of
So I go, tremble shake
I am just a step away, I'm a step awayHere's your song laid at your feet
Show them how, they trample me
Hearts are dragging all across the pavement slam the dirt
So I make you take the worst and you can't help but go and ask for moreI throw these words away as autumn hits the ground
I'm sorry Mom and Dad, just can't listen
So I go, tremble shake
I am just a step away, step awaySo here's your song laid at your feet
I show them how, how you swallow me
Hearts are dragging all across the pavement slam the dirt
So I make you take the worst and you can't help but go and ask for more
Here's your song, ask for more, yeah, yeah, you ask for moreYour smoke just burns my face, I fake a stomach ache
What I hate to say is everything I meanHere's your song laid at your feet
And show them how, they trample me
Hearts are dragging all across the pavement slam the dirt
So I make you take the worst and you can't help but go and ask for moreSo here's your song laid at your feet
I show them how, how you swallow me
Hearts are dragging all across the pavement slam the dirt
So I make you take the worst and you can't help but go and ask for moreYou ask for more
You ask for more
You ask for more
You ask for more
