

Step Away

Lucid

What would be enough to turn your head around?
From your heavy tongue the heaviest of
So I go, tremble shake
I am just a step away, I'm a step away Here's your song laid at your feet
Show them how, they trample me
Hearts are dragging all across the pavement slam the dirt
So I make you take the worst and you can't help but go and ask for more I throw these words away as autumn
hits the ground
I'm sorry Mom and Dad, just can't listen
So I go, tremble shake
I am just a step away, step away So here's your song laid at your feet
I show them how, how you swallow me
Hearts are dragging all across the pavement slam the dirt
So I make you take the worst and you can't help but go and ask for more
Here's your song, ask for more, yeah, yeah, you ask for more Your smoke just burns my face, I fake a stomach
ache
What I hate to say is everything I mean Here's your song laid at your feet
And show them how, they trample me
Hearts are dragging all across the pavement slam the dirt
So I make you take the worst and you can't help but go and ask for more So here's your song laid at your feet
I show them how, how you swallow me
Hearts are dragging all across the pavement slam the dirt
So I make you take the worst and you can't help but go and ask for more You ask for more
You ask for more
You ask for more
You ask for more
