

# So, Very Avoidable

## The Nerve Agents

The blood... red... flowing  
A lifeless draining two dead  
One on the way,  
How is that for control?  
Irresponsible!  
You paid with their lives in full With your good friends dead  
Tell me how will you live?  
Stained walls, a dark memory  
Of the night hat you did...  
Drive drunk...  
In control? You were not  
When you crashed in the pole So, very avoidable! But your friends are dead now  
you see your friends all dead now  
In the early waking hours... dripping with sweat
