

# I Choose You

Annie Grace

I CHOOSE YOU by ANNIE GRACE

You know Iâ€™ve been searching  
For the very thing you want  
Unanswered questions  
Trying to find my own way out  
And I am running, crying,  
Calling out your name  
Only to find you were  
Standing there with me

You saved me you saved me  
In my darkest hour  
Grace  
Now I believe  
You held me you loved me  
In the fire Jesus you were there with me

I carried the shame  
Emptiness abuse for too long  
Suffering and sickness sorrow pain  
I say no more  
You are not welcome  
I break every lie in Jesus Name  
And now I am stronger wiser  
And greater is He in me

I choose you I choose you  
I will live not die  
I will shout testify  
You live you live  
I choose you Jesus I choose you  
Cos you first chose me  
And you first loved me for me  
I choose you Jesus I choose you  
I will live not die I will shout testify  
You live you live  
I praise you Jesus I thank you  
Cos you first chose me  
You first loved me for me

Cos you first chose me  
And you first loved me for me  
And you first chose me  
And you first loved me for me
